Video: <https://www.youtube.com/watch?v=jEknUr-ulpM>

Method

1. Prepare and superglue 30mm 1.8mm Inner Tube into 25mm 3.0mm Outer Tube
2. Tie on thread at joint and build up turns to smooth transition between tubes.
3. Tie on thread 8mm from rear of Outer Tube and tie down Tag.
4. Wind Tag and tie off. Remove waste
5. Tie in Rib
6. Tie in Body Tinsel and bring thread up tube.
7. Wind body Tinsel, tie off and trim waste.
8. Dub Front Body (roughly just up to tube joint}
9. Tie in 1st Wing
10. Tie in Flash
11. Tie in 2nd Wing
12. Tie in Cheeks
13. Tie in 1st Hackle & wind 2 turns
14. Tie in 2nd Hackle & wind 2 turns
15. Superglue head and trim thread
16. Superglue head and position Conehead securely
17. Trim Inner Tube and burr with lighter to secure
